EDUCATION

2023 – 2027	Bachelor's Degree at VIT Bhopal University , Bhopal	(Current CGPA – 8.00)
2023	CBSE 12th Board at Macrovision Academy , Bhurhanpur	74.3%
2021	CBSE 10th Board at Bhandari Public School , Khandwa	92%

WORK EXPERIENCE

Virtual Internship- NASSCOM July 2025 – August 2025

I successfully completed a virtual internship organized by NASSCOM on Google Cloud Generative AI where I learned prompt engineering, AI model usage, and cloud platform deployment. This experience strengthened my understanding of real-world AI applications in leveraging Generative AI for innovation and problem solving.

PROJECTS

Smart Traffic Violation Reporting System

- Second Runner-up in SOLVIT Hackathon.(out of 150+ teams)
- This system utilizes advanced image recognition algorithms to detect and report traffic violations in real time, such as speeding, red-light running, and not wearing seat belts.
- It captures evidence (images/video) and sends instant alerts to law enforcement agencies.

Independent Distributed Source Coding

Developed and implemented Independent Distributed Source Coding techniques in Python to optimize data compression and transmission from multiple correlated sources, enhancing efficiency and reliability in multi-source networks relevant to IoT and cloud computing applications.

Certifications

NPTEL – Introduction to Machine Learning – IIT Madras
63% Scored

- **Google**
Technical IT Support Certificate
- **Oracle**
Certified Generative AI professional
- **VITYarthi Certifications**
Received a certificate in AIML, Programming in Java, Python and C++
- **Coursera**
Bits and Bytes of Computer Networking

Skills

Programming Languages	Python, Java (Basics), C++, Javascript
Developer Tools	VS Code, Git/GitHub, PyCharm, IntelliJ, MS Office tools,Figma, Canva

Extra-curricular Activities

Design Team Co-Lead – WiCyS VIT Bhopal Student Chapter

Design Team Member – E-cell VIT Bhopal
