EDUCATION

VIT Bhopal University

Bachelor's Degree | CGPA: 8.21

Bhopal, India

2023 – 2027

Macrovision Academy

CBSE 12th Board – 74.2%

Burhanpur, India

2023

Bhandari Public School

CBSE 10th Board – 92%

Khandwa, India

2021

EXPERIENCE

Virtual Intern – Google Cloud Generative AI

July 2025 – August 2025

NASSCOM

Remote

- Completed a virtual internship on Google Cloud Generative AI covering prompt engineering and AI model usage
- Gained hands-on experience with cloud platform deployment and real-world AI applications
- Leveraged Generative AI tools for innovation and problem-solving use cases

PROJECTS

Smart Traffic Violation Reporting System | [\[link\]](#)

2024

- Secured **Second Runner-up** at SOLVIT Hackathon competing against 150+ teams
- Built a system using advanced image recognition to detect violations (speeding, red-light running, no seat belt) in real time
- Implemented automated evidence capture (images/video) with instant alert dispatch to law enforcement agencies

Pathwise | Frontend Developer | [\[link\]](#)

Nov 2025 – Mar 2026

- Built an interactive React 19 + Vite UI with Framer Motion animations and Recharts for data visualization
- Integrated AI-generated course content with Markdown/LaTeX rendering, quizzes, and gamification features
- Implemented PDF/ZIP export functionality and OpenRouter AI integration for dynamic learning experiences

Project Aura: AI Chronic Disease Management

March 2026

- Developed an end-to-end AI platform for chronic disease management, integrating hybrid models (Random Forest & LSTM) for predictive health analytics
- Built a scalable **FastAPI** backend to handle real-time dataset ingestion and high-concurrency model inference requests
- Implemented specialized data preprocessing pipelines for multi-modal health records to ensure high prediction sensitivity

CERTIFICATIONS

NPTEL | Introduction to Machine Learning – IIT Madras

NPTEL | Marketing Analytics – IIT Kharagpur

Google | Technical IT Support Certificate

Oracle | Certified Generative AI Professional

Coursera | Bits and Bytes of Computer Networking

VITYarthi | AIML, Programming in Java, Python, and C++

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, Java

Frameworks & Libraries: React 19, FastAPI, Framer Motion, Recharts, Scikit-learn, TensorFlow/Keras, Pandas, NumPy

AI/ML: Random Forest, LSTM, Computer Vision,

Developer Tools: VS Code, Git/GitHub, PyCharm, IntelliJ, Figma, Canva

Platforms & Cloud: Google Cloud Platform, AWS, Kaggle

Data & Analytics: SQL/MySQL, Data Analysis, Machine Learning, Generative AI, Prompt Engineering, Statistical Modelling

EXTRA-CURRICULAR ACTIVITIES

Design Team Co-Lead

WiCyS VIT Bhopal Student Chapter

Design Team Member

E-Cell VIT Bhopal
